SUMMARY

Professional Summary

Motivated second-year Software Engineering student at Epoka University in Tirana, Albania, seeking a Junior Software Engineer or Software Engineering Internship position. Skilled in Python, Java, C++, HTML, CSS, and basic software development principles. Experienced in building academic and personal projects, writing clean code, debugging programs, and solving technical problems. Eager to contribute to real-world software projects while continuing to grow as a developer.

EDUCATION

Bachelor of Science in Software Engineering

Epoka University

2024 – Present
Tirana, Albania

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures, Algorithms, Web Development, Database Systems, Software Engineering Principles

SKILLS

Programming Languages

Python, Java, C++, HTML, CSS

Tools

Git, GitHub, Visual Studio Code, Linux command line

Web Development

HTML, CSS, basic responsive design

Databases

Basic SQL

Software Development

Object-Oriented Programming, debugging, problem-solving, algorithms, data structures basics

PROJECTS

Student Management System

01/2026 – 05/2026

Built an application for managing student records, including adding, updating, searching, and deleting student information. Used programming fundamentals such as functions, classes, file handling, and input validation.

Technologies: Python / Java / C++ **Key Skills:** OOP, data handling, debugging, problem-solving

Personal Portfolio Website

09/2025 – 10/2025

Designed and developed a personal portfolio website to present personal information, projects, and contact details.

Technologies: HTML, CSS **Key Skills:** Frontend development, page structure, styling

Library Management System

10/2025 – 11/2025

Created a basic system for managing books, users, and borrowing records. Implemented menu-based functionality and practiced organizing code into reusable parts.

Technologies: Java / Python / C++ **Key Skills:** Logic building, data structures, application flow

Simple Calculator / Utility App

11/2025 – 12/2025

Developed a small application that performs basic calculations or utility functions. Focused on writing clean logic, handling user input, and testing different cases.
